MEMORANDUM

Data on Selected US and Soviet Naval Ships

1. Attached are two tables containing data on two Soviet ships and two US ships that have some characteristics that are roughly comparable. The data on Table 1 are from the latest edition of Jane's Fighting Ships. The data on Table 2 are from intelligence sources.

2. You will note that there are some differences between Jane's estimates and the intelligence data on the Soviet ships. We also doubt that Jane's data on the US ships is totally accurate, and it is clearly incomplete.
